CAMP CROFT
SOUTH CAROLINA

July 8, 1943

My Dearest sweetest Judy,

This evening I have some extra time so I made this letter as long as possible ^{would} telling you all the things I have liked to tell you in my previous letters today being Thursday I find that on this evening is the only free evening I have during the week. Monday and Tuesday we have make up class for everybody so Wednesday we have are night problem. Friday is 7 loon show and this Saturday evening of all days I have guard duty. This will probably be the only time I'll have to serve on guard duty. It's worked on a alphabetical order with two men every evening. It came out on me for Saturday night so I'll be

walking around my post
guarding government property and
take care of the drunks that
usually come back to camp
around 2 o'clock in the morning.
I'll be on for two hours and relieved
for four hours.

One night problem for last
night was going to different
points with the aid of the
compass. We had a good
time hunting around in the dark
for the places we had to locate.

Today we spent a few
periods at the Motor School. We
learned operations of motor pool,
arm and hand signals when
driving. I think I'll learn
how to drive but I won't
receive a drivers permit. Only fellows
who knew how to drive in
civilian life will be given the
opportunity to take the drivers test.

Will let you no more about my course at the motor school as the day pass by.

In my Morse code course I'm doing about average. I'm up to the third lesson. I know 14 letters and now working on another 7 letters. Most of the class is in the second or third lesson with a few in still lesson, one, four and five.

Darling I think that about brings you up to date on my progress in the army.

yesterday my officier told aus that we have another five weeks to complete are course. Before that we were told 14 week course. Honest dear, you can't tell from one minute to the next what going to happen.
