August 13, 1943  
Thursday

my Dearest Judy

Today is strictly a day for goldbricking for me. I was assigned as barracks guard for today. My duties are to keep the barracks clean and add three pieces of coal in the furnace every hour for the hot water. I swept the floor once this morning and I'll do it again this afternoon.

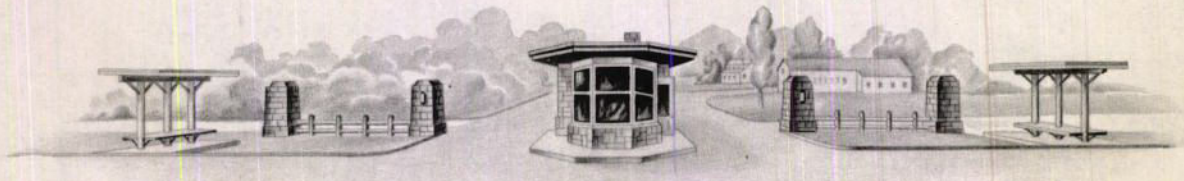

after re-reading your Monday extra special letter over and over again I shall start from the beginning again and answer some of the topics you mentioned.

As for the snapshots dear you 2  
can hold them for me. I didn't think  
you wanted the pictures I spoke of  
for you to return. Anyway I'm  
pensive in asking you to mail  
them back since you have them  
and you want the snapshots.

Hope you enjoy looking  
at the most recent pictures as  
much as the picture I took  
with the watermelon.

Darling, there isn't any  
need to feel the least bit jealous  
seeing me with the other two girls  
in one picture. I certainly wish  
that it was you I was taking  
the picture with. Maybe soon, I hope  
Very kind of you, suggesting  
getting something for my father. Thanks,  
but I'll be able to take care of it.

I write him as often as possible  
what's will happen to Aaron  
if he fails out. I don't no. Probable  
reassigned to some outfit.

CAMP CROFT  
SOUTH CAROLINA

I sent you best regards to  
Caron and Julia.

Judy I definitely think that  
you misunderstood me about  
being disappointed if I shouldn't  
get my furlough as planned. Because  
what I meant was you, should  
take it as best as you could. I  
realize that you will be as  
disappointed as I'll be but I'll  
like you to be as little disappointed  
as possible. Understand?

Sweet, if you can still take  
a vacation with one of your  
girl friends than I think it would  
be best.

There is a lot of confusion  
over my cycle because  
orders from Washington seems to
