Tuesday

My Beloved Dearest, Judy,

I knew there was something that I left out in yesterday's letter and during the night I remembered my report on "Dr Barry Was a Lady". It was a good picture but what made me to enjoy it more than the usually picture was the fact that throughout the whole picture it made me think deeply of you, especially when they played your favorite song, "I do love you" yes I do.

Sam included in his letter that I received today a clipping from the Daily News about my former boss. The paragraph is titled headed, a wife, a nurse and a Tycoon.

our Behrendt wife filed suit
for separation in court because
since his heart attack he never
got over the nurse he hired
to take care of him since then.

Do you remember our Behrendt
and the nurse that was in
the office every day?

Received both your
Saturday and Sunday letters
today. Hope your cold is
much better now.

Looking forward to
that Monday letter tomorrow.

Its scheduled that
I'll get the whole day off
Saturday but I'll be restricted
to barracks. They are giving
us a rest which I feel
we will need for our
maneuver starting Saturday
night. about

That's all for now
sweetheart so I'll close
with mountains of love and
a kiss on every peak.

Benago
