Dear Blondie,

Glad you liked the pictures I sent you. As for the negative of the picture with the other two fellows I'm afraid I feel it would be a difficult problem to handle because one of the other fellows, wife has the negatives to the second set of pictures I took and last week she went back home, so you see dear it would take a long time and by then I probably won't be here.

I'll send you the other negatives as soon as I get my reports back.

As for your vacation
and my furlough darling
I suggest that you take
your vacation now, first
because I won't know
definitely about my furlough
until after I return from
maneuvers and then it depends
if I'll get the leave. So to
be positive you better take
your vacation now.

Monday night Charlie,
from New York got married to
his girlfriend who came down
here Sunday.

Because we only go a
short distance it isn't necessary
to use a truck. We use a
drum a wire, each fellow
holding one end of a roller
that rolls out the wire.
Only in long distance would
the truck be used. In training
here we only reeled out about
one half a mile of wire.

Glad the pictures leave you with the impression I'm very happy but I no I would be more so if I was with you.

Today we have don't have a night problem which makes the three third free night in a row.

Sometime I'm going to call ^{you} up. I do hope you will be home. I figured that I'll be able away from camp for two weeks so I'll like to hear your voice before leaving.

That's about all for now

darling so with a sky of love
and a kiss with every star,
I close, original)
