My Darling Judy,

Just in case you receive this letter before you get the letter I've written you yesterday, I shall repeat.

Yesterday turned out to be one of my happiest days since coming overseas because I received mail from you and my mother.

Details are in yesterday's letter so I won't go into that again.

I expected to receive mail today but we didn't have mail call which means there wasn't any mail for my group.

While I am disappointed I feel that I can't kick because about half of the fellows from my shipment haven't gotten any mail yet and I seem to have received about the most letters that any body got in my company. Most of the boys who get mail, amounted to one or two letters.

The rest of the mail is probably on its way and we will receive it shortly. I love —

We just had a practice black out, and while it was on I started addressing the envelope to this letter. I now see that I placed my return address on the wrong corner. That explains why the envelope looks like it does.

That was the first black-out that I've been in since coming overseas. I guess you remember all the times we were caught in one of them in Manhattan.

We detained our rationing card for the week today and I bought at the PX. box of hard candy containing 4 pieces, assorted, they are similar to the shark's candy.

- 1. package of waffles
- 1. 54 bar of candy.
- then I got 5 packages of cigarettes -
- 2 cakes of soap - shaving cream, tooth brush -
- writing tablet, and that's about all.

From what I heard I may get a pass to go into town tomorrow but can't tell to the last minute because plans may be changed.

As for my cold - its much better and almost gone.

That's about all there is for this evening dear, so with a good night kiss, and all my love I'll come to a close -

Pleasant dreams - I LOVE YOU
AS - ALWAYS

Ben
