My @ closed Judy,

Today just got started back in Casablanca & find that this is a small world because I met today a father-Whittington Heights who I used to go around with before when I used to go with the 16th Street crew. No, you don't know him but he was a good friend of Harry, the former fellow who was lived on 16th St. talked about the good old neighborhood and how much we would like to be back there now. Maybe some day soon that do dream will come true. I can't afford to kick much when I meet solider who have been ^{overseas} much longer.

Feeling I feel bad, knowing that I'm not going to receive any mail from you for quite a while. It makes me feel good, that at least you should be receiving my mail regularly.

By the way you get your ticket that came in very long while I was training and I played checkers with the set you sent me.

There isn't any address at the camp so I'll have to do with what we are eating for time but being able to eat plenty of apple and orange much up for that way.

Hope all is well with you, dear and family. I'm falling for you but I miss you with each passing second.

I hope you'll be able to visit and not to worry you about wanting to see me and left me. I feel that I have a new and just what the same way regard her of long time hope same to you. With oceans of love and kiss
in every way,

Ron
