My Dearest Beloved Sweetheart,

Nothing unusual has occurred since I last wrote you yesterday. It's the same routine and environment.

The weather was warm therefore I took advantage of it by going swimming and afterwards I was able to take a refreshing clear water shower.

Last night the movie was "Riding High" and I've noticed posted that this evening the show is "Pin Up Girl" which I believe should be entertaining.

But disappointed today in that I did receive one U mail letter from you dated July 16th.

Since returning from the hospital I haven't heard from Julie Wolfefeld, I'm wondering if he also is on his way to a different country.

It's very possible and that
might detain him from writing
to any one else besides his family.

Thinking of snapping another
roll of film tomorrow and send
it along to you. might as well
use the rolls of film I've been
receiving.

Now have in my possession
one of those S.I. ^{transparent} cigarette cases and
it's the custom of placing snapshots on
both sides of the cases. Therefore I've
done the same which means I
look at your pictures that much
oftener.

Well darling its time to say
good night, so as I grasp you
close to me with that lingering
kiss I'll whisper as always, that I
love you as always, and will
continue to do so.

Pleasant dreams and sleep well.

Forever yours,
Ben
