My Dearest Judy,

Four more letters came from you today and this time they all had my new APO number. They were two U mail dated Aug 22nd and 29th and the other two air mail dated Aug 21st and Aug 27th.

I can't see how Aaron's going to the Pacific will affect me in remaining over here longer, therefore we better drop that topic as I probably meant to say something else and I worded it incorrectly.

My statement saying that I wonder if Julie is ^{also} on his way to a different country must be understood by you now, as you know now I'm in France and Julie is also.

Yep, I received all your birthday kisses and it sure was thrilling, but I'm actually

after going with his fellow
so long she probably grow
into loving him. Now it must
be more complicated than
before. If so best lets forget
what I said as because if
I was talking with you dear
you would understand my
point and I find it difficult
to write.

That completes your letters
darling and there isn't much
to write about myself as its
the same old daily routine
with nothing of importance
to write about.

I'll sign off now with
all my love and kisses,

Forever yours,
B. E.

looking forward to when you ²
physically will be able to do it.

Your letters are full of
questions in regards to my writings
which you don't seem to be
able to understand. I don't
mind the questions dear but
I think I better make myself
clearer in the future so your
my statements won't be so
puzzling.

About Zelder, I'm inclined
to think that as a woman she is
mainly interested in getting
married to someone who deeply
loves her but her affections
for this man might not be
as deep, yet its a change for
her to get married. Its very
unimportant and possible a
ridiculous statement to write
as neither am I concerned nor
care if what her Zelder goes.
