Hello my Love,

Didn't receive any letters
from you dear but I did
get your lovely package of
Aug 17th.

The cookies though a few
are crushed to taste grand
and I'm saving the majority
of them for supper time
which is in less less than
half an hour so I can
have the cookies with the
coffee.

Haven't opened the box
of chocolates now because
if I do they will be gone
before supper time, therefore

I wait until the evening to enjoy the chocolates.

Glad to find some more packages of soup and I'll try the two jars of juices but I wouldn't advise sending me the juices again until the spring because with winter practically here I'll need something warm to stimulate my cold body.

I'm sure I'll enjoy the Bob Hope book, W by just the other day I was reading a article about his book in Life magazine and saying I'll like to read his book.

How can I refuse
your demand for more
requests when you should
me a sample of what I'll
receive in your package with the letter.

Though I didn't receive a
regular letter from you I'm
satisfied in that you wrote
a small letter contained in
your packages,

I would like the
following items: chocolate
candy so package 
and the cookies. Whatever you
send me darling I'll be
overwhelmed with joy
because your judgement
on selection is excellent.

Besides your package I received one from Mom and fourteen copies of the "New York Post" which should supply me with enough reading material for the next few days.

Considering the package traveled in fairly good time. Its been taking up to ninety days to receive a package.

Just about how call dearest therefore I better sign off in order for me to be first on line than go back for seconds if there is anything worthwhile to eat over again.

all my love and kisses
 Yours forever
 Ben
