Sunday
Oct 29, 1944

Hello Sweetheart,

One advantage that I have over you on Sundays is that it isn't necessarily mean no mail call today because we had mail call and I received three air mail letters from you plus the very thoughtful letter of the candy package dated Sept 19th.

Your letters were dated Sept 21st 22nd and 23rd.

Now you know the reason why you didn't receive a letter from me over a month. It had nothing to do with the invasion of H island.

If you sent me a cable I haven't gotten it yet but just as you worry where are my letters between such and such dates, eventually, the

2

cablegram will reach
its destination.

So Sept 22nd was the day
you finally heard from me.
By the letters I received from
mom and Mike I was under
the impression it was Sept 24th.
What's the difference so long
as you get the letters.

As much as I'm anxious
to send Hank a souvenir, and
mainly you I've been unsuccessful,
since the few chances that I
had of being in a city I
found the stores to be made
of merchandise and what they
do have are odds and ends
articles. For a scraf, the storekeeper
was asking ~~and~~ the ridiculous
price of ten dollars. I'm not
being very fussy in selecting a
gift for you but until I can
get to a city that has some
decent articles it will just
have to wait.

As much as I would like to be particular in my selection I can't since there isn't a variety of items to choose from. Possible when, and if I even enter a large city the situation will be different.

I don't think it was so terrible that I slipped a few days in that long letter I wrote you aboard ship and then until I was able to start mailing your letters. If I hadn't written that statement you and would never know about it, and I'm sure darling that there were days you might have been busy and instead you wrote me two letters the following day correct? So me it's evening out so long as I hear from you ~~about~~ daily. Anyway it didn't mean that you would be getting additional

letters because it was all ⁴
written in that long letter.

Congratulations on your
raise. For the responsible
work you are doing you
certainly deserve it and your
employer realizes the fact too.
Good keep up the fine work.
It should be good practice for you
in later when you will have
the responsibility of running the
household problems.

You bet, I often stopped
dead in my tracks and think
of what you might be doing.
Instead of thinking though I've
been using the word dream
to imply the same thing.

Say your French sentence
it better than I could do, I
prefer the English writing since I
know it slightly better. Here's a
secret, I'm deeply in love with
you, to, and miss every thing
I know about you, that places you
the best girl in the world as always,
Ben
