My Dearest Judy,

One year ago today, I departed on Italian territory. Three days later I was with my present outfit and in combat. When you stop to consider it, a long time and it actually feels much longer. I've covered about 4000 miles since coming overseas, learning about four different types of foreign people.

Once again we are making good progress in a determination to get this war over with. Then what? I wish I knew.

Received your mail letter of Nov 26<sup>th</sup> today dear, with great much pleasure. I bet you or you eating only once a day, would have filed letter, if I hadn't written it sooner.

Send you a few more negatives in yesterday's air mail letter.

Still no snow, but a little rain, now and then all my love and kisses darling,

V-MAIL

Yours,  
Dan
