My Dearest Sweetheart,

you may not believe me but I could barely read your lovely air mail letter dated Dec 23rd and a mail letter dated Dec 26th now can I clearly see what I'm writing you now. My eyes haven't gone blind on me darling just that I've been to the hospital today for another eye examination and eye drops were placed into my eyes.

Luckily I have a very interested eye doctor who is trying to locate the cause for my eyes always being bloodshot. I have to report to the hospital again on Thursday. The doc really is fine, He is giving me the same feeling as if I was to visit him in private practice. There are very few Army doctors who show such interest, when to a doctor now he's not being paid any extra money. Let you know the final results as soon as I'm informed.

Now I'm at the ANC room waiting till 8 o'clock to go to tonight's show.

U.S.
ARMY

The movie is "Lady In Washington" which I feel should be entertaining and then there will be an orchestra playing a few popular numbers.

My name is on the bulletin board for getting paid tomorrow night. I didn't expect to get paid while here but I'm glad I am.

Darling the most popular song I'm hearing since I'm here is I'll be seeing you and then I think of you. I like that song alot as I already write you.

The Russian present large scale attacks seem to be progressing nicely. Hope it continues.

Now going to the theatre honey, wish I could be escorting you.

Good night darling, sleep well, and pleasant dreams, all my love and kisses,

I am

Forever yours
Ben
