My Beloved Judy,

Within two weeks I believe that the educational program will be in full swing, as today we received a list of over a hundred different courses that we will have a choice of. ~~With~~ In a few days a adviser is suppose to be around here to guide us in courses that will prepare use in our post war future. Thats the second time that Ive heard that story but now higher headquarters claims that they have the proper books therefore ~~it~~ I think that this time it wont be a false alarm. I havent definitely decided what subjects Ill study but I have a good idea of what I want. We are limited to three courses which will be one hour each per day for five day week. I dont know how many weeks the courses last. I believe that Ill only take two commerial subjects and my third will be photography so that Ill get a better knowledge on what I plan to be my hobby. I doubt if to much can be learned from the general courses that will be offered. This doesnt mean going to univers~~ity~~ but will be conducted on a battalion level.

I missed seeing the USO stage show Up In Central

Park" which was shown yesterday since I went away to visit Julie. Naturally I don't regret not seeing the show since I had a much better time, even though I was traveling most of the day.

Today I saw the movie "The Brighton Strangler" which was a fair picture.

There wasn't any letters from you today honey but I wasn't disappointed as I received a few from you during the past few days.

That's all for now darling,  
Good night and pleasant dreams,  
I love you with all my heart  
sweetheart and I will forever

yours  
Ben
