My Beloved Judy,

As you might be able to detect Im now using a brand new ribbon on my typewriter which I bought today when visiting Howie.

That is correct , I saw Howie today and here is how I suddenly decided to contact him. This morning it was a nasty rainy day and I Heard that a peep saw going in the vicinity that Howie was in, therefore I decided Ill go along for the ride and see Howie at the same time and possible see the pictures ~~tak~~ that we took together. I accomplished my mission as you probable already glanced at the enclosed snapshots which I dont think are so good especially with the excellent camera that Howie is suppose to have. You see Howies camera is a 35mm which produces a small negative and when it comes to enlarging the print it loses a little of its clearness. I prefer my camera any day even though it isnt valued at high as the 35mm because my camera takes a decent sixe negative and it doesnt require for the prints to be enlarged unless a picture comes out so good that I would want a large picture of the snapshot. I think that I fulfilled your desire for many pictures honey since recently Ive sent you beaucoup pictures of myself. Are you satisfied ,? I hope you are at least temporarily . One thing that is good about the pictures is the excellent constract between the black and white, as you noticed.

When to the movies again today dearest and this time I sww a average picture titled "High Powered". This week PillyConn the professional fighter is touring units within mydivision and Ill probable get the change to d see him. There is also a USO stage show sometime this week and I hope to see that also. I might as take in everything while I can ,since their isnt much of anything else to do around here.

*Good night darling and pleasant dreams, I love
you with all my heart, and miss you very much,*

*Forever yours,
Ben*
