My Beloved Judy,

Today started an eight week intense training period consisting of forty four hours per week. After the first day I am totally ~~discussed~~ discussed cause the entire program is kind of silly, for today we had one hour each, lecture on the disassembly of the M1 rifle and the carbine. For combat nets, it just doesn't make sense. But you know the Army does it has an answer for every thing. The final two hours each day is spent on recreation such as baseball or volley ball. I believe that after a few days there will be an relaxing of the planned schedule.

This evening we had a movie in our own company area titled, "Pellows So Post" it was stupid but very comedial.

I've noticed in the newspaper that

many good stage shows are now
in the ETO. Just that I'm anxious to
see is "Our Town" and "Something for
the Boys."

I have had time to scout around yet,
I'll look for the box, I mentioned in yesterday's
letter but tomorrow I plan on attending to it,
so long as nothing comes up, that prevents
me from doing so.

Good night darling, and pleasant
dreams, I miss you and love you with
all my heart,

Yours forever,
Ben
