PART TWO

Oct 1, 1951

camera was because, I felt I can buy a similar one in the States for a quarter of the price and for about one hundred dollars I should be able to buy the best reflex camera that I have in mind. I know I would never think of buying a camera for such ridiculous prices but this money I am going to convert into a money order and use the one hundred dollars to supplement for the camera I sold, I'm positive that the deal paid, cause it will give me an extra one hundred dollars to pocket, I've also been thinking on a movie camera since Mike write me about it, I think the home projector is a up and coming hobby which seems every more enjoyable than snap shots.

Paris is a beautiful city that reminded me of New York, and left me very homesick for you baby, especially upon seeing the Frenchman escort their lady friends to the arc along the famous "Great White Way" of Paris. We want to return home, I tell you in detail all about the city.

Closing now with all my love & kisses to the best girl in the world, and I mean that sincerely.
