My Beloved Darling

October 10 1945
Wednesday

I never was so delighted to receive a mail letter as the one I received from you today honey, dated Sept. 28th.

I'm very glad that you took the change in writing me and I hope you continued to write even though I told you otherwise cause it will be soon time yet before we ship out. The main reason for the delay appears to be the tie up of ship in New York harbor and all the fellows certainly are gringing. This happens to be one strike I disapprove of, just this moment someone read a petition that is being sent to the newspaper PM telling them that all of us have over 75 weeks and still waiting at this camp for three weeks plus the fact that the longshoremen are the blame for us being delayed already 4300 from this camp has signed, and the goal is for the total of 8000 new stricken at this camp I don't intend signing during cause I feel that the main cause is only due to the strike, Good night and pleasant dreams
